

UMSU Advocacy CHARTER

Our Vision

We envision a university community where students are empowered to negotiate academic and administrative issues, supported by independent and expert advice. We aim to empower students with the knowledge, skills, and confidence to navigate the University's policies and procedures.

Our Purpose

We help address the inherent power imbalance between students and the University by providing expert, independent advice to students on their rights and obligations in the context of their education. We also use this casework to inform and support the work of elected student representatives in identifying and addressing systemic problems to manifest meaningful change.
