

**University of Melbourne Student Union
Clubs and Societies Report
Esther Luk
To C&S Committee 13(25)
11 Aug 2025**

It's been such a short time since our last meeting that I haven't really done much. However, below are updates of a few small things. Hopefully our meeting does not go for too long!

1. **Awards Night:** I have had a look at the award nomination form and the performance EOI form to check on progress. There are quite a few nominations, but not many performances at all. Regarding tickets, we have had 44 booked. I will send out a reminder email to nominate for awards and attend, and Ewan is responsible for performances (although I can help out if needed). We are also planning to send out an email to shortlisted clubs to remind them to show up to Awards Night in case they win. Furthermore, I have received a design for social media from UMSU Design, so I'll coordinate with them regarding that.
2. **New Clubs:** I have been reading the applications the last few days to try and get through all of them before our meeting. I am mostly just highlighting red flags so that they are not missed during the hectic meeting.
3. **Other:** Mel and I are continuing to correspond with MSL, but I have been a little slow on replying so we don't have an update yet. I have also edited a little bit more of the Canvas, but there are still quite a few things I want to add, and I haven't gone through the entire subject yet. Thirdly, I ran a survey of whether Tuesdays or Wednesdays work better for committee meetings, and there isn't any preference for any date except the one in SWOTVAC.
