

## ***Tastings Takeover*** **UMSU Creative Arts Department**

**Tastings** is an opportunity for current students to develop new creative works, learn new skills, and collaborate with a tightknit team of peers.

With an emphasis on revitalisation, renewal and reimagination of the arts, **Tastings** supports students to develop creative works in a variety of artforms and mediums including theatrical productions and performances, dance, exhibitions, films and more!

**Tastings** artists will develop a range of production skills and art making strategies that will travel with them in into future projects and plant the seeds for new works that can be fully realised after **Tastings**.

**Tastings Takeover** supports visual artists, curators, and interdisciplinary practitioners to experiment with ideas and methods of display within the new George Paton Gallery (GPG) and Arts Lab, located in the new Student Precinct.
