

Of Pieces and Places

MAIN GALLERY

Colleen Chen, Sai Bond Chong, Shervin Jaberzadeh, Qing Ping Lee,
Eleni McIlroy, Nathan Su and Ivan Sulestio

Seven students studying Architecture and Urban Design and Planning at the University of Melbourne bring to the gallery *Of Pieces and Places*, an interactive project centred around a tabletop game. Made of LEGO, tape and string, a complex algorithm accompanied by a handwritten rulebook will take you on a journey of creation, excitement, new friends and big ideas.
