

## Journey

**Beth Arnold / Cyrus Tang / Evelyn Yee**  
**16 / 26 March 2004**

Journey is about the passage of time— capturing the present, and remembering the past. Journey takes the audience through a combination of 2D and 3D works in a variety of media. Some of the works tend to be personal, but the audience is invited to investigate them by addressing their own life experiences.

### **Opening night**
