

## Malfunction

**Jonathan Luker**  
17/27 May 2005

Devices, by definition, perform a function. When the function is not performed as expected, the device is said to have malfunctioned. Our lives are saturated with devices. We have learned to divine their function at a glance. What happens when we misread the cues? Is the function wrong because our assumptions were contradicted?

### **Opening night**

Wednesday 18 May, 5/7pm
