

Ocular Notes...

**Members of Melbourne artists' group Ocular Lab
20 February/9 March**

Ocular Lab is an artists' project initiated for the purpose of promoting dialogue and experimentation amongst its members, peers and associates. Run out of an old milk bar in West Brunswick, the Lab has evolved out of the histories of 'h' project (1997-1998) and its past incarnation, Ocular Laboratory (2000-2001).

The exhibition at the George Paton Gallery is of notational works by various Lab members and builds on a history of off-site exhibitions and events.

Opening night

Wednesday 21 February, 5/7pm
