

## The Herd

**Rachel Joy**  
**13/23 March**

This group of three-dimensional sculptural works explores the idea of the place of the individual within the group. Materially the works consciously sit within an anti-art, 'low brow' framework. Made from cardboard packaging that would otherwise be discarded the works question our disposable culture and the value we place on 'art' objects.

**Opening night**  
 Wednesday 14 March, 5/7pm
