

FRONT GALLERY  
*Revolution: Crosspoint of Power of 45-65*

Patriot Mukmin

This exhibition is the initial stage of my research, which examines what happened in Indonesia in 1965-66, where a tragedy occurred that claimed hundreds of thousands of lives. By examining what happened in the previous period (1945-65), I aim to understand the social background and dynamics and provide an objective view. This exhibition presents my response to the literature and archives I discovered in that preliminary investigation.
