

Come with us

**Georgia Anson, En En See and
Erin Tily-Laurie**

Come with us brings together three distinct art practices in celebration of the imaginative mind. Victorian College of the Arts painting students, Georgia Anson, En-En See and Erin Tily-Laurie explore their views of the world through a range of processes and mediums that reflect on the imaginative landscape of their minds.

Georgia creates wet sensual spaces and vibrant dream-like fantasy worlds that reflect upon animality and wildlife. En-En's practice explores the notion of contemporary collage in seeking different approaches to process imagery. Erin is fascinated by the underbelly of American culture. Filtering it through her own childhood memories Erin explores its dualities and contradictions.
