

useful box aesthetics

Students from VCA. Curated by Sandra Bridie
8/18 April

With works created from stationery supplies such as packaging tape, brown paper, battery-fired mechanisms and push pins, this exhibition of recent work from VCA students demonstrates a playful yet savvy low-end materiality. This work is informed as much by recent art practice as by the 'useful box' approach to primary school craft projects.

Opening night: Wednesday 9 April, 5 / 7pm
