

I just want you to like me?

Jade Venus

4/13 April

Through the idea of handmade, *I just want you to like me* explores everyday emotional questioning, confronting emptiness and loneliness. In an intimate and personal atmosphere, confessional text pieces in embroidery and quilting are not only exposing but obsessive. Notions of domesticity and isolation are seen through a world of traditional craft---a tiny world of stitching and folding to mark time and memory.

Opening night

Wednesday 5 April, 5/7pm
