

An opening word from project originator Marcie Di Bartolomeo:

"I have been involved with UHT since 2018 as part of several student theatre groups and productions, and as co-artistic director of Fake Newspaper Theatre this year. I will continue to be involved throughout 2022 as one of your Creative Arts Officers.

Beyond the Rehearsal Room came about from a desire to showcase the works of everything student theatre that was supposed to be staged this year, but sadly were not able to be fully realised as intended. While I was the one that proposed this idea to UHT, it has been the efforts of UHT and GPG that have been able to make this happen. I hope you enjoy the exhibition, and I look forward to seeing student theatre continue to be developed, and brought back onto the stage in 2022."
